BRINGING SCIENCE IN ACTION

Sharing tools and methods for bridging the gaps between science and climate-resilient urban design and planning

The UCCRN_edu is an Erasmus+ Cooperation Partnership, launched by world-leading Higher Education Institutions which include members of the Urban Climate Change Research Network (UCCRN), an international consortium dedicated to foster multidisciplinary knowledge-based cross-sectoral action on climate change mitigation and adaptation from an urban perspective. The Partnership, together with the Associated Partners including leading international research and education institutions and networks, aims to develop an educational alliance to train the next generation of urban climate professionals to navigate the complexity of the interconnected knowledge domains linked to urban climate action in research, urban design and policymaking.

The final UCCRN_edu Multiplier Event will take place on 8-9 November 2024 in Napoli (Italy), hosted by the Department of Architecture of the University of Naples Federico II and is aimed at providing training on key project results delivered by the Erasmus+ KA220 action UCCRN_edu "Climate Resilient Design, Planning and Governance of Cities". A public dissemination event will showcase project results and discuss opportunities for a continued collaboration with EU and Global partners of the project to capitalize UCCRN_edu methods and tools for innovating higher education curricula aimed at training the next generation of urban practitioners through multidisciplinary knowledge and transversal skills.

An International Symposium will deepen topics related to multi hazard resilience: a panel discussion will bring together a set of core members from UCCRN_edu partners and associated partners, as well as representatives from other sister projects in EU, such as Horizon Europe UP2030 and KNOWING.

As its closing act on November 9 UCCRN_edu chooses Legambiente event "Shout Out for Climate Change" (https://www.legambiente.it/) to make its voice heard by the Earth's greats who will be meeting from those days for COP 29, the UN climate change conference to be held in Baku (Azerbaijan). UCCRN_edu will join Legambiente in a shout out for climate justice, which will take place at the same time throughout Italy.

8 November 2024
h. 15.00 - 17.00
Dipartimento di Architettura
Aula SL 3.6, Stair C, 3° floor
Via Forno Vecchio 36, Napoli

UCCRN_edu FINAL EVENT | INTERNATIONAL SYMPOSIUM
Climate Change and Cities. Bridging Education, Research and Practice for Climate Action
Institutional Greetings
Mario Losasso, Università di Napoli Federico II - DiARC National Coordinator PE3-TS1 RETURN (Multi-risk science for resilient communities under a changing climate)

Introduction
Mattia Leone, Università di Napoli Federico II - DiARC, Coordinator Master UCCRN_edu, Co-director UCCRN European Hub

Keynote Speaker
Multi Hazard Resilience: learning experiences in Chile and beyond
Renato D'Alençon Castrillón
Pontificia Universidad Católica de Chile, School of Architecture

Panel Discussion
Chantal Pacteau, CNRS-Sorbonne University, Co-director UCCRN European Hub
Martin Lehmann, Aalborg University, Co-director UCCRN Nordic Node
Cristina Visconti, Università di Napoli Federico II-DiARC, UCCRN European Hub
Giulio Zuccaro, Università di Napoli Federico II - DiSt, Scientific Responsible PLINIVS Study Centre, LUPT

9 November 2024
h. 11.00 – 12.00
Piazza Dante, Napoli

UCCRN_edu FINAL EVENT | SHOUT OUT FOR CLIMATE CHANGE
Meeting at 11.00 in piazza Dante to test together with the inhabitants of Naples the UDCW toolkit and play the UCCRN_edu Serius Game.
At 12.00, as closing event, UCCRN_edu partners will join Legambiente in the SHOUT FOR CLIMATE!
